Rapkat Amin

Full Stack Web Developer Software Engineer

Draper, Utah | (832) 530-5779 | aminrapkat@gmail.com | aminrapkat.com

Profile

I am a **Full Stack Web Developer** with experience in **Ruby**, **Rails**, **JavaScript**, **React** and many more technologies. I am seeking a position at a company where I can contribute my expertise and continue learning.

Projects

Sportsblr (Technologies used: Ruby on Rails | PostgreSQL | AWS S3 | Ajax | JavaScript | React | Redux | HTML | CSS | Heroku | Github)
March 2020   live | github
- Connected **AWS S3** to **Rails** to upload **media**, allowing for scalability of media services.
- Implemented **user authentication** using **Bcrypt** and to hash user's **password** for user security.
- Created a **modal** using **React** that allowed me to efficiently create different types of forms for posting a variety of content.

Rise (Technologies used: MongoDB | Express | React | Node | Axios | HTML | CSS | AWS S3 | Heroku | Github)
March 2020   live | github
- Used **Mongoose** populate to eager-load related **data** across multiple **collections**.
- Took advantage of **React's componentDidUpdate()** feature to update the cart's quantity dynamically without having to refresh the page.
- Designed original **UI** using **HTML** and **CSS** including toggle buttons that react to mouse hovers.

Study Hall (Technologies used: MongoDB | Express | React | Node.js | GraphQL | Apollo | HTML | CSS | Docker | Heroku | GitHub)
April 2020   live | github
- Created multiple **React components** on the same page to target specific content for manipulating the **data** without having to change other contents and **data**.
- Utilized **GraphQL** to fetch custom **API** requests from the **backend**.

Crazy Taxi (Technologies used: JavaScript | jQuery | HTML | | CSS | Webpack | GitHub)
April 2020   live | github
- Used **jQuery** and **JavaScript** to manipulate displaying of content on different stages of the game.
- Utilized **CSS media queries** to create a fully responsive, device-agnostic design.
- Leveraged custom **event listeners** to dynamically play-pause toggle buttons with music-player.

Education

Associates Degree, LONE STAR COLLEGE
June 2015 — May 2017
- Associates of Arts (AA) Degree

Computer Science, App Academy
October 2019 — May 2020
- Rigorous 1000-hour **Software Development** program with <3% acceptance rate.
- Teaches Full Stack Development: **Ruby** | **JavaScript** | **React** | **TDD** | **OOP** | **Web Development best practices**

Employment History

Assistant Warehouse Manager at SutongCTR
June 2015 — November 2017
- Utilized **SAP** Business One **software** to keep track of inventory and generate related documents.
- **Inspected** all receiving and shipping orders(on average 20 full truck loads and 100 small orders per day), scheduled pick-ups and deliveries with trucking companies and **assigned** orders to warehouse associates.
